Royal Baking Powder
ABSOLUTELY PURE

LINDSAY SPEAKS.

THE TARIFF BILL NOT PER-
FECT BUT A STEP
FORWARD.He Defers to the House in Rela-
tion to the Income Tax.

Washington, April 27.—Senator Lindsay was the first Senator to speak this morning. He made a telling blow against Hill and against the policy of the so-called "Conservatives." The galleries on the Democratic side of the chamber are crowded, and those on the Republican side were well filled. He is speaking from the desk recently occupied by Senator Ransom, of North Carolina. Nearly every Democrat Senator is on the floor and he is given the closest attention.

In opening his address Judge Lind-
say said:

"The Democracy of the country have justly criticised the Wilson bill, because it fails in many respects to cure inequalities and remove oppressive discriminations. Criticism has been even more severe upon the action of the Finance Committee in reporting amendments modifying, in the interests of the manufacturers, some of the provisions of the Wilson bill. But Democrats in every section of the country, with the greatest unanimity, agree that the pending bill, with or without the proposed amendments, is infinitely better than the existing tariff laws; and that it is the imperative duty of the Democratic members of this body to press this bill to a final vote, and at the earliest practicable time remove the uncertainty that aggravates the existing condition of business affairs.

"If, as I believe, and, as in my opinion, a large majority of the people believe, a democratic tariff reform is necessary to equalize taxation, and is consistent with the highest possible conditions of national prosperity; we should have that reform now, and at once. It will hasten the return of better times, upon an enduring and constitutional basis, and will satisfy the people that prohibitive tariff taxes are no longer to stand in the way of our agricultural products being freely sold in the markets of the world or exchanged upon a reasonable basis for commodities necessary for the comforts of that great body of American consumers, who do not and cannot receive the benefits of the bounties and subsidies distributed to the favored few, under the guise of protection."

After reviewing the contest in the National Convention of 1892, and showing the extreme ground taken by the New York delegation under the lead of Flewer, Murphy, Slocum, and Sickles, Judge Lindsay said:

"I am free to say the Wilson bill is not my ideal of real Democratic tariff reform, and the amendments proposed by the Finance Committee are in many respects open to serious criticism. But I realize that we cannot have all we ought to have, nor all the country has a right to expect, by the exercise of power and duty of reforming our system of tariff taxation."

"My objections in the main go to the extreme conservatism, rather than to the radical character of the proposed changes. But in order to secure the passage of a Democratic tariff law, removing some and modifying others of the most odious and oppressive features of existing laws, and opening the doors in some respects, to greater freedom of trade, I am ready to sink personal predilections, and join with my party friends, and all others who agree with us upon this great subject, and at the earliest possible time enact this bill, with all of its imperfections, into a law."

Judge Lindsay followed this declaration by an analysis of census reports, by which he showed that the tariff on imported articles imposed by the Wilson bill was greater than the total wage cost of leading articles of merchandise. Then he said:

"In speaking of taxes on consumption, the senior Senator from New York said that one of their merits is that paid at the will of the consumer in the enhancement of price. If noted, they are all surmounted in detail and self-assessed, with the least inconvenience, at the best time, in

FOR HARMONY.

DEMOCRATS OF THE SENATE
GETTING TOGETHER ON
THE TARIFF.A Number of Changes Agreed
Upon by Way of Com-
promise.

Washington, April 26.—President Cleveland is confident that the kickers in the Senate can not defeat or long delay the Wilson Tariff Bill. To editor J. M. Head, of the Nashville American, who called at the White House this morning, the President said most emphatically that the Tariff Bill will pass the Senate and become a law. He believed it would come to a vote by the first of June. Speaking of the outlook for his party, Mr. Cleveland expressed the greatest confidence, and said that the new tariff law would give satisfaction and prosperity to the country, and the Democratic party would successfully stand upon the achievements in the present Congress.

"All tariff taxes, and ninety per cent of all possible internal revenue taxes, are taxes on consumption; the difference is that the greater portion of the internal revenue taxes paid by those who voluntarily consume articles of luxury. In the main these taxes are self-imposed and paid at the convenience of the consumer and may be declined, or avoided without illegality. But the taxes paid in enhanced prices resulting from import duties on the necessities of life, are as inexorable as fate, and five fold more oppressive than internal taxes, taxes much as four dollars out of every five paid go to the manufacturer to fatten him, and only one dollar into the coffers of the government for public purposes."

Judge Lindsey followed with an examination of Senator Hill's arguments against the income tax. While he was not prepared to advise the taxation of incomes as an original proposition, he would not oppose it to endanger the bill. In conclusion Judge Lindsey said:

"I have no fears of the political consequences of the proposed legislation. Past the pending bill and we may go before the country with an assurance that no party that proposes to reverse our action in reducing the tariff, or to abandon the income tax, and thereby increase tariff taxation, can secure the endorsement of the people. I have no more fear of New Jersey and New York, than I have of Kentucky or Arkansas, so far as tariff reform or the tax upon incomes is concerned. Other causes may lose to us New Jersey and New York, but the country does not believe there is any just ground for apprehending that the Democrats of those states are any less sound today on the question of tariff taxation on the basis of the constitution than they have been in the past."

"Our duty is plain. It can not be mistaken. We must pass the pending bill. We owe it to the Democracy of the country to pass it, and we are confronted by the still higher consideration that the best interests of the great mass of the American people will be sacrificed if we fail now in the work of tariff reform."

TWO LIVES CRUSHED OUT.

Disastrous Accident at a Coal
Bank Near Barbourville.

Barbourville, Ky., April 26.—Full details have reached here of the death of two persons about a mile from town. Mrs. Wm. Stomper, a widow, lives on an adjacent farm. Sunday she sent several children to get coal from a neighboring coal bank. As the children were gathering the coal, the slate roof broke loose and instantly killed one of them, a boy four years old.

The other children ran back to the house to get help to get the child from the mass of slate and earth. A daughter of Mrs. Stomper went back with them, and in her efforts to extricate the dead body of the child the slate roof broke loose a second time, so above crushing her a second time, so also crushing her to death.

The other children ran back to the house to get help to get the child from the mass of slate and earth. A daughter of Mrs. Stomper went back with them, and in her efforts to extricate the dead body of the child the slate roof broke loose a second time, so above crushing her to death. The child was also crushed to death.

If King Solomon was alive he would now say: "Go to the traveling man, learn his ways, and be wise." Mr. C. W. Battell, a Cincinnati traveling man representing the Queen City Printing Ink Co., after suffering intensely for two or three days with lameness of shoulder, resulting from rheumatism, completely cured it with two applications of Chamberlain's Pain Balm. This remedy is gaining a wide reputation for its prompt cures of rheumatism, lambs back, sprains, swellings, and lameness. 50 cent bottles are for sale by Moore & Orme.

Cripple Creek, Colo., April 28.—Senator Wolcott has been hanged in effigy in Victoria, a mining camp in the Cripple Creek district, with the inscription on his back: "Down with Tisher, a prominent merchant of the town gave notice would be taken to the Court of Appeals of the District of Columbia.

A lady at Tooleys, La., was very sick with bilious colic when M. C. Tisher, a prominent merchant of the town gave notice would be taken to the Court of Appeals of the District of Columbia.

SERIOUS ALLEGATIONS.

Peculiar Suit Brought Against
the Adams Express Co.

by a Bank.

Henderson, Ky., April 27.—The Henderson National Bank filed suit against the Adams Express Company to recover \$210 alleged to have been taken on October 6, 1893, from a package containing \$5,000 gold consigned to the Citizens National Bank, Louisville. The bank's seal was intact when the package was delivered.

FOR HARMONY.

SAVOYARD STATES IT.

Why the Price of Wheat is Low.

Once there was a man named Franklin—Benjamin Franklin—a New Englander. For aught I know that most interesting thing in Boston, Franklin's sign is one of the constituents of Mr. Lodge's successor in the House of Representatives. Franklin was not the scholar in politics; but he was far better—he was the wise man in policies. When Franklin was negotiating the treaty between the victorious revolted colonies and Great Britain, more than one hundred years ago, he vainly strove to have an article incorporated in that treaty providing for an absolute free trade between the United colonies and the mother country forever. Unfortunately the statesmen of England then were as blind as our Lodges and Reeds are now, and this wisest of all our countrymen thus wrought in futility.

Had Franklin prevailed he would have rendered his country an incalculable service. Not only has protection destroyed our foreign carrying trade, while tree trade has increased England's three hundred per cent; but at last protection has succeeded in greatly impairing our grain growing industry. It will be many a long day before the Northwest produces dollar wheat. England has attended to that. We would not trade with her on fair terms, so she expended hundreds of millions developing other wheat belts, and those other wheat belts have played the mischief with the western farmer. Had we traded with England

on terms of equality, we would not have been compelled to pay such a high price for wheat as we do now.

People complain some of the hard times, but as yet none have signified their intention of joining Mr. Coxey's army.

Trade with the merchants, while not large, is sustaining.

The hoggs should have a good pasture, well watered, where they can with a little extra obtain a good living and make a satisfactory growth.

Two hundred hands are employed in fitting this tobacco for the foreign market.

The coal industry, though still in its infancy, employs one hundred men in the various mines.

A small teaspoonful of powdered borax added to a bowl of cold starch will give more stiffness to linen than any of the numerous things you have tried.

To clean marble boil four ounces of soft soap with four of powdered whiting and one soda. Apply hot and let remain on the marble for a day or two.

Any stain upon the hand or under the finger nail can be easily removed by immersing it in a basin of warm water.

Providence has been a prohibition town for fifteen years, but you could always get a dram if you wanted it; and if you had the money you could get two.

We have four schools here; three of these are of a primary character, taught by ladies.

The M. F. Academy, under charge of Prof. Coleman, who has taught here twenty five years, enrolled ninety pupils since January. The Spring Term of this school will close on the first of June, and the Normal or Teacher term will commence on Monday following.

We are not behind in religious activity. The Baptists and Cumberland Presbyterians have good houses of worship, able pastors, and maintain Sunday Schools.

The Methodists have a nice house, nearly completed, which they will dedicate about the last of the present month.

T. G. Montgomery and wife, T. K. Givens and wife, and Mrs. J. W. Hill's family not long since.

Wm. Grubbs and wife have moved into their neat residence, near here.

L. L. Bebout is sapping boards for pasture.

Mrs. Ida Moore spent last week with her sister, Mrs. Anna Franklin.

C. E. Donakey and family spent Sunday at D. E. Gilliland's.

Misses Cora Clark and Kitty Beard went to Marion last week.

C. E. Weldon, of Tolu, passed through here Friday, en route for Marion.

Miss Ora Pierce was thrown from a horse while returning home from church the fourth Sunday, but was not seriously injured.

Drummers plentiful, times hard, and news scarce.

A WOMAN JUROR.

Judge Bradley Refuses to Grant
Col. Breckinridge's Motion
for a New Trial.

Bulletin.—Washington, April 28.—

Judge Bradley today overruled the motion of counsel for Representative W. C. P. Breckinridge for a new trial of the celebrated Breckinridge-Polkard breach of promise suit. Bond was fixed at one hundred dollars for an appeal, which Breckinridge's counsel gave notice would be taken to the Court of Appeals of the District of Columbia.

Cripple Creek, Colo., April 28.—A lady at Tooleys, La., was very sick with bilious colic when M. C. Tisher, a prominent merchant of the town gave notice would be taken to the Court of Appeals of the District of Columbia.

Wm. Grubbs and wife have moved into their neat residence, near here.

C. E. Weldon, of Tolu, passed through here Friday, en route for Marion.

Miss Ora Pierce was thrown from a horse while returning home from church the fourth Sunday, but was not seriously injured.

Drummers plentiful, times hard, and news scarce.

A WOMAN JUROR.

Rockford, Ill., April 26.—For the first time in the history of Winnebago county a woman has been placed on the list of petit jurors for the present term of court, Miss Alice Schmauss, a very prominent young lady socially, bearing this unique honor. Her name appears on the jury list as Al. Schmauss, from the Sixth ward, which is the name she is familiarly known by. Miss Schmauss is a resident of the ward, can vote at school elections, and is intelligent and qualified. Her name was drawn through an apparent oversight of Supervisor Law in going over the tax list, but as she does not come under the head of any of the exemptions and possesses all the qualifications named by the statutes, her best friends are urging her to serve.

For dyspepsia or stomach derangement no other remedy can be found within forty minutes after taking the so pleasant, prompt, and effective as first dose. for sale by Moore & Orme, Ayer's Cathartic Pills.</p

COUNTY ATTORNEY.

We are authorized to announce J. W. BLUE, Jr., a candidate for County Attorney, subject to the action of the Democratic party.

JOHN T. FRANKS

is and is swallowed up in the fact that an income tax is paid by those who can afford it, out of incomes and properties whose protection and guarantee are a large part of the Government's work and care.

J. A. MOORE

is a candidate for re-election to the office of County Judge; election Nov. 1884. He will be grateful for your support.

GEO. M. CRIDER

is a candidate for County Clerk; election Nov. 1884. He will be grateful to your help; if elected he promises a faithful and impartial discharge of the duties of the office.

Coxey has reached Washington and the country still stands.

The Populists have nominated a State ticket in Pennsylvania.

We most respectfully pull off our hat to the Third congressional district of Ohio.

Saturday the Democrats of Crittenden will make a spoon or spoil a horn. They can do either.

The Republicans made gains in the Indiana town elections Monday. This is an off year, you know.

The cases of the State of Kentucky against the sureties of Dick Tate are tried in the Franklin circuit and they are Dalton's old bane.

Deputy Marshal Smith, Jr., is talking par with the reputation of being one of the bravest men in the world. The United States learned the abouts of the hand in a warlike manner. He learned the district. The hand had a few democrats won by I. T., and ten days after the district voted there to see her. For Governor of 500 persuasion he got. There is some balm in pilot him to the Democratic committee.

One week ago the Democratic committee and Populists aside their personal feelings and preferences Saturday and proceed to select men because of their eminent qualifications and undisputed availability. Rise above personal obligations, gentlemen, and discharge the duty you owe to the party. Committeemen were chosen to act for and instead of the people, and when the people delegated to them the authority to make the nominations, they expected the committee to reflect the wishes of the rank and file of the party.

If this is done, there will be general satisfaction, and that plan of making the nominations will be applauded. If this is not done there will be general dissatisfaction and that plan of nominating will be condemned from one end of the county to the other. The responsibility resting on the members of the county committee is no small thing, and the work should be done with care.

TARIFF REFORM.

Mr. Carlisle Believes the Pending Bill Substantially Will Pass.

Most of the Changes Under Consideration, He Says, are Unimportant.

Washington, April 29.—Secretary of the Treasury Carlisle authorizes the following statement in reply to an inquiry as to whether it were true that he had taken part in the conferences which have been said were being held for the purpose of agreeing upon certain amendments to the pending Tariff Bill:

"I have had no conference upon this subject with anybody except the Democratic members of the Senate Committee on Finance, and therefore can not state of my own personal knowledge what has occurred in any other conference that may have taken place. It is true that an effort is being made to agree upon such changes in the pending bill as will secure for it the united and active support of the Democratic party.

We are authorized to announce J. F. FLANARY as a candidate for County Attorney, subject to the action of the Democratic party.

COUNTY ATTORNEY.

We are authorized to announce J. W. BLUE, Jr., a candidate for County Attorney, subject to the action of the Democratic party.

Two Lives Saved.

Phoebe Thomas, of Junction City, was told by her doctors she had consumption and that there was no hope for her, but two bottles of Mr. King's New Discovery completely cured her and she says it saved her life.

Mr. Theo. Eggers, 139 Florida Street, San Francisco, suffered from a painful cold, approaching Consumption, tried without result everything that was claimed. Electric Bitters with cure all diseases of the Liver and Kidneys, will remove Pimples, Boil, Sore Rheum, and other afflictions caused by impure blood. Will drive Malaria from the system and prevent as well as cure all malarial fevers. For cure of headache, constipation and indigestion try Electric Bitters. Entire satisfaction guaranteed, money refunded. Price 50¢ and 75¢ per bottle at H. K. Woods drug store.

Electric Bitters.

This remedy is becoming to well known and so popular as to need no special mention. All who have used Electric Bitters sing the same song of praise. A pure medicine does not exist and it is guaranteed to do all that is claimed. Electric Bitters will cure all diseases of the Liver and Kidneys, will remove Pimples, Boil, Sore Rheum, and other afflictions caused by impure blood. Will drive Malaria from the system and prevent as well as cure all malarial fevers. For cure of headache, constipation and indigestion try Electric Bitters. Entire satisfaction guaranteed, money refunded. Price 50¢ and 75¢ per bottle at H. K. Woods drug store.

To our friends and customs we have too many goods, have no room to store them and we will sell any thing we have cheaper than ever in order to make room. Look at a week's price of ours.

Washington, April 29.—Coxey, commander of the Commonwealth army standing on a rickety wagon in the center of Brightwood Driving Park, announced this afternoon that the greatest march of the Nineteenth century had been accomplished. Three hundred and fifty miserably dressed, woe-begone specimens of humanity marched into the park, led by a wheezing apology for a band, pinched and stretched themselves in the sun. Thousands from the city turned out to make a holiday of it, and to inspect the curious aggregation.

In the most pretentious tent, which bore the sign, "Headquarters" painted across it, were found the leaders of the army, Gen. Coxey and Marshal Browne. The Marshal bussed him in Republican party.

COUNTY ATTORNEY.

We are authorized to announce J. W. BLUE, Jr., a candidate for County Attorney, subject to the action of the Democratic party.

What the Clergy Say About

ELECTROPOISE

Rev. Robert M. Barrett, Baptist Seminary, Louisville, Ky.—"I gladly add my testimonial to that of many witnesses for the Electropose. Besides other serious troubles, I have cured a severe attack of la grippe in one night's treatment."

Rev. W. W. Bruce, Hustonville, Ky.—"With the Electropose I have cured a bad case of opium habit in less than two months' time; the patient now has no desire for the drug."

NOTICE.

Taken up as a stray by W. L. Moore, living near Sheridan, Crittenden, Ky., a dark bay filly colt, about 18 months old, with white spots in her forehead, black mane and tail, and a small white spot on her chin, was cured by me at \$40. Given under my hand, this April 17th 1894.

L. A. Ladue, J. P. C. C.

Go to Mrs. J. M. Horning, Blackwood, Ky., for millinery goods.

Persons who use fertilizers will find to their interest to see me before buying. I handle an extra article at the lowest price.

P. H. Woods, Crayeville, Ky.

Don't forget that we will sell you strictly hand made leather goods of all kinds for less money than you ever bought cheap factory made stuff. We positively defy competition on bread and butter of all sorts. If you want freedom from all pain, walks with the Electropose, and you will be able to do all kinds of work that you could not do before.

It is a mystery to me that out crutch or cane, and she is well. It is almost a miracle."

Rev. W. F. Wyatt, Morning View, Ky.—"I began to improve from the first application of the wonder working gen'l my general health is better than it has been in years. I believe it to be a God given remedy."

Address DuBois & Webb, 509 Fourth street, Louisville, Ky.

CHEAP

FOR

CASH.

We assert openly, boldly and without fear of having to take it back that we are head-quarters for all goods in our line, and furthermore we will guarantee to save you money on every purchase of goods pertaining to our business.

We sell only fertilizers that have been thoroughly tried. Get our prices.

Pierce & Son, Hopkinsville, Ky.

Some folks seem to have an idea that our new rules do not apply to them. Now for the purpose of correcting this erroneous impression that what we sell will state with emphasis that what applies to one of our customers applies to every one in our line.

Persons should receive equal treatment.

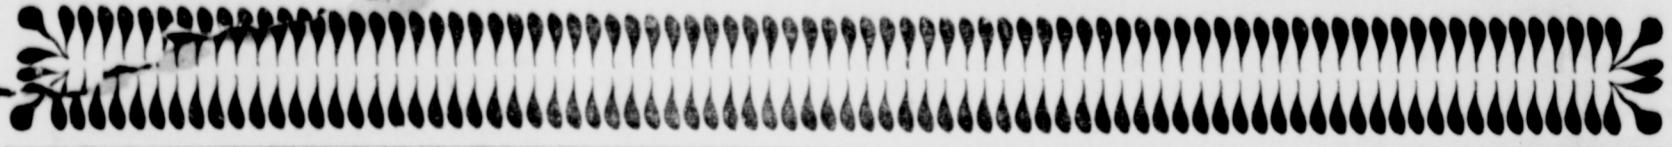

The poor should buy goods just as cheap as the rich. All will admit that the credit system is ruinous to both merchant and customer. The only correct way to do business is on a strict cash basis. This system gives you every protection and none of the disadvantages of long time notes. You buy your goods very much cheaper, simply pay for what you get, and do not help to pay for what you get, and to my agreeable surprise, it did both. I have used these fifty cent bottles and believe it to be the finest thing for rheumatism, pains and gout, & rhe

Don't Fail to See Our Big Stock of The Best Clothing on The Market.

Best \$20.00 Suits For \$15.00,

A CALL.

The Democracy of Crittenden county is hereby called to meet in mass convention at Marion Monday, May 14, to appoint delegates to be the convention to be held at Paducah May 22, 1894, to nominate a candidate for Judge of the Court of Appeals.

R. L. Moore,
Chin Co. Com.

Dr. A. E. Orr is improving.

Dr. T. H. Cossitt, Dentist, Marion.

Mrs. Loving's is the place to get bargains.

Building lumber was never so cheap as now.

Farmers are in pretty fair shape for a good crop.

Country sorghum for sale at Thomas Bros.

Mrs. Loving gives a small present with each hat she sells.

Mr. Wm. M. Farmer, of Sturgis, was in town Monday.

For sale, a good milk cow.—J. F. Brown, Marion, Ky.

Special bargains in baby caps, at Mrs. M. L. Barnes & Co.

If you want nice stylish hats or bonnets, see Mrs. F. W. Loving.

Mrs. J. M. Horning, of Blackford, has the latest styles in millinery goods.

Get your lime at \$1.00 per barrel from Pierce & Son.

Born to the wife of John Morse, Friday 27th a bouncing boy.

Go to Mrs. Loving's for the prettiest and cheapest goods in town.

"Satin," the colored fighter, will complete his term on the street today.

You will always find a nice new line of hats to select from at Mrs. M. L. Barnes & Co.

When you go to Blackford buy your millinery goods from Mrs. J. M. Horning.

Southern queen seed sweet potatoe \$1.00 per bushel at M. H. Weldon & Son.

Our goods are new and no old goods for the so called "cheap trade" Mrs. M. L. Barnes & Co.

Mrs. J. M. Horning, Blackford, Ky., sells millinery goods cheaper than the cheapest.

Yesterday Jonth Ramage's little boy stuck a nail through his foot and lockjaw is feared.

Harry Stout completed the building of the new school house in the Dean neighborhood last week.

Mr. T. C. Jameson will begin housekeeping on Depot street in East Marion this week.

Anything in a nobody hat or bonnet for little money you will find at Mrs. M. L. Barnes & Co.

A lot of blasting powder and fuse, for sale at what it will bring.—Thomas Bros.

Dr. Jenkins, Dentist, will be in Marion about May 15th, prepared to do all kinds of dental work.

James M. Hayes was before the pension board for examination yesterday. He has applied for an increase.

The Hoosier and Campbell corn drills are the best made. Be sure to examine them before buying a drill.

There are 369 pupils in the Marion school district. Of this number 223 are east of the Princeton and Fordyce road.

Ladies when you see and price Mrs. Laura Skelton's millinery goods you are sure to buy. They are cheaper than the cheapest.

If you want a splendid town lot for a residence, see R. C. Walker. He has a few left in East Marion, the growing part of town.

Ladies it will pay you to call on Mrs. Laura Skelton and price her goods before making your spring and summer purchases.

Col. A. D. McFerran came in Tuesday with a club. He says his fine imported buck is a Shropshire, and not a Cotswold, as was reported last week.

J. H. Kirkham who was in the Elizabeth town, (Ill.) jail, charged with the murder of Dr. Fowler, Monday night of tuberculosis of the lungs.

The annual meeting of the stockholders of Marion Bank takes place Saturday. It is also the annual election.

Frank Woods, a Kuttawa druggist, has made an assignment. His liabilities are about \$3,000; assets, \$2,500.

Pierce & Son concluded not to take the stock of goods at Dycusburg it was reported they had purchased last week.

P. H. Woods,

Crayeville, Ky.

Introduction Sale.

Merrick's six cord soft finish spool thread has no equal and is the best. My goods are the equal of any, and better than many. Save money by buying of me.

Geo. M. Crider and Miss Loutesa Pickering.

LEAPED TO DEATH.

J. E. Owens, a Well-Known Man Commits Suicide While On the River.

The Paducah News of the 1st says:

J. E. Owens, of this city, committed suicide in the Cumberland river last night about 11 o'clock by jumping overboard from the ferryboat Bettie Owen, then en route from Eddyville. The circumstances connected with Owen's disappearance are rather confused, but there seems no doubt in the minds of those who witnessed the leap into the water that the man took his own life, and that he is now dead beyond a doubt.

The particulars of the tragedy are as follows: Yesterday morning when the ferryboat Bettie Owen was preparing to leave this wharf for Eddyville, Owen, who was personally known to Capt. Owen, came aboard and asked that gentleman if he could be landed at Dycusburg. He seemed to be drinking and appeared rather excited. Capt. Owen replied in the affirmative and the new arrival went on deck.

About an hour before midnight, while the ferryboat was going by the famous lead mines of Cumberland river, six miles above Smithland Owens, now more intoxicated than ever, walked to the forward guard of the lower deck. Stooping down he thrust his shoulders through an opening in the high railing of the forecastle and instantly leaped head long into the swell from the boat's bow.

An alarm was at once given. The action of the Owen was reversed and she backed up stream to the place where Owens jumped overboard.

A life boat was lowered, search lights turned on the water and the steamer spent half an hour in going over the stream while the crew and negroes watched for some trace of the missing man. No signs of him were discovered. He had either drowned out right or swam ashore the river at that point being very narrow.

Mr. L. H. James went to Smithland again Monday. He is one of the attorneys in the big damage suit of Richard Shelby vs. George Gibbs. Shelby sues Gibbs for \$10,000 damage for assaulting his daughter. The farm and stock of the defendant was attached, and Gibbs' brother claims he purchased the attached property before George Gibbs fled the country.

The Jones brothers, Wellington and James, of Crayeville, were in town Monday. They are delighted with their new farm and home. There are no better farmers in the county, and no better citizens anywhere.

Mr. N. W. Tweddle, writing to the Press, from Hillville, Livingston county, wants some one to come to that place and put up a carding machine. He says there will be big money in the business.

Saturday night a burglar attempted to enter the residence of Mr. C. E. Doss. He did not succeed in gaining access to the house, where a shotgun was waiting to give him a reception.

James M. Hayes was before the pension board for examination yesterday. He has applied for an increase.

The Hoosier and Campbell corn drills are the best made. Be sure to examine them before buying a drill.

FURNITURE

~~~~~

**Everything Needed in  
the Household at the  
LOWEST FIGURES.****COFFINS.**

~~~~~

**All Grades and Sizes;
Burial Robes
and Slippers.****WALKER & OLIVE.****ORIGIN OF OATHS.***It Was a Ceremony of Great Solemnity and Importance.*

The oath was originally an appeal to divine authority to ratify an association. The old Greek gods swore by the Styx, and Jehovah is represented in the early books of the bible as swearing by himself, there being none higher. The form of an oath among the Hebrews was, "By the God of Abraham," "God do unto me, and God help me to do it." Greeks and Indians, two persons desiring to take an oath, or affirm with great solemnity, take a fowl or a dog, one by its head, the other by its tail. The Ostyaks of Siberia swear by the head of a bear, making a motion with the jaws, and expressing a hope that they may be detected if they speak falsely.

In ancient times an oath was considered essential to the validity of an oath that the witness should hold something in his hand, or place it upon some object of great sanctity. With the Jews it was the book of the law, which, no doubt, led to the use of the bible in Christian courts of justice. The Bedouin Arab, however, from the most remote period, used various forms of oaths. One of these was, "By the Temple;" another, still in use, is as follows: The person taking the oath holds down the middle point of the tent and swears by the "life" of the tent and its owner. Mohammedans swear by the "setting of the stars," a most peculiar oath, though hardly so mysterious as the aforementioned and urgent on William the Conqueror, who swore "By the splendor of God."

The Roman oath of olden times was made with great solemnity and elaboration, says the St. Louis Republic. In Roman mythology, Juno, making a promise to sleep, strengthened it by taking the heavens in one hand and the earth in the other. Greeks and Romans swear by their gods, by the Styx, by Olympus. By hell, by their sacred springs, wells and rivers, and by the sun and the moon. Their oaths were of much value and meaning during the early days of the Republic, but worthless after they became corrupt.

Oaths lost their sanctity and became commonplace, and were only used among the Jews. Greek ladies swore daintily by Venus, Diana and Juno, and now and then by some male god whose name was frequently taken in vain by their liege lords. The French monarchs, too, had their own peculiar forms of oaths.

Louis IX., in his old age, gave his royal rescript to Charles VIII., swore "By the life of God!" Louis XII., who well merited the title "Father of his People," treated the Deity with less familiarity. When he desired to emphasize an assertion he simply said: "May the devil carry me off." Charles IX., satisfied his morbid desire for some form of profanity by saying: "By the name of God." By God's death." Henry IV. also had two oaths with which he freely punctuated his conversation. One was "Jardien" (May I deny God), and the other was, "By the belly of Gris." St. Gris was the god of drunks.

They Knew the Bride.

A curious incident happened at a church wedding in Utica the other evening. It was a society affair, and at 8 o'clock, the hour appointed for the ceremony, the church was crowded with guests. The minister who was to officiate with there also the groom, ushers and bridesmaids, but the bride was not.

Ten minutes after 8—twenty minutes after 8, still no bride appeared. The people in the church were growing impatient. Half past 8, and still no bride! The groom was very anxious. Had her courage failed? Had she come to Utica to live with another man? Had her house burned and she perished in the flames? Had the carriage broken down and injured her?

These were some of the questions that ran through his mind, leaving their impress on his face. Eight-thirty-five! The bridesmaids bit their lips, tugged nervously at their ribbons and uneasily descended their boughs. Was she not coming? Vague rumors can run through the audience and the minister himself, used to all sorts of curious things at weddings, began to wonder at the absence of the bride.

A council of war was held, and it was decided to send another carriage after the post haste. Another! What the world was coming to!—nothing at all had been sent for her! During all this time the drivers supposed that the ceremony had been in progress. In the excitement the principal factor had been forgotten.

It is needless to say that no time was lost in transporting the bride to the altar, and at 8:40 the nuptial knot was tied and the belated bride and the happy groom went on their way rejoicing.

A Gigantic Wooden Statue.

In the Japanese capital there is a gigantic image of a woman, made of wood and plaster, and dedicated to Hachiman, the god of war. It height it measures 54 feet; the head alone, which is reached by a winding staircase in the interior of the figure, is 12 feet high. The figure holds a large sword, which apparently holds two persons. The figure holds a huge wooden sword in one hand, the blade of the weapon being 27 feet long, and a ball 12 feet in diameter in the other. Internally the model is fitted up with extraordinary anatomical arrangement, which is supposed to represent the different parts of the human body. A fine view of the country is obtained by looking through one of the eyes of the figure. The admission to all parts of the structure is 2 cents.

Japanese tradition says that during the time of the Te-Shomong rebellion in 1522, hundreds of cords of wood were piled around it and fired, but that the sacred object itself failed to burn or to even be scorched by the flames.

THE TRAINED EAR.*It is Invaluable to those Who Operate Machinery.*

At a meeting of the local engineers an interesting paper was read by H. Dantzer, formerly an engineer on the Reading railroad, but now a contractor in West Philadelphia, says the paper. The paper dealt entirely with the wonderful phenomena which engineers on railroads steam-boats and the masters of mammoth machinery ascertain accurately and instantly when anything goes wrong with the machinery under their control.

The paper gave as its title, "The Engineers as Human Seismographs," the only reliable friend of the engineer is a well-trained man. The greater part of Mr. Dantzer's paper was filled with incidents relating to railroad work, but the really wonderful incidents of which he treated are from the mammoth pterosaurs, which Philadelphia abounds. The thunderous rumble and roar of the engines, which are considered the most intricate machines in the world, is a pleasant time to the passenger, but let a bolt be come loose, let a band slip or a piston or bearing get out of place, and there is a discord in the pleasant time. Instantly every man in the pressroom, no matter what he may be doing, raises his head and looks around, to see the source of the dissonant noise. The particular note is located in an instant, and the portion or part of the ponderous machine where the discord is being made is traced by the ear at once. The same rule holds good in the engine room of an ocean steamer. The instant any part of the noble engine goes out of order it calls in unmitigated tones to the quiet-looking engineer who hastens to prescribe a remedy.

Mr. Dantzer's paper told of many incidents of his experience as a railroad engineer. The master of a locomotive gets to know his engine as well as his best friend. During a night with the train dashed along at the rate of forty-five miles an hour, the trained engineer hears a slight sound which is out of the ordinary. The noise is rolling prairie green the year round, covered with wild grass, and the engineer, who has got used to it, lets a bolt be come loose, let a band slip or a piston or bearing get out of place, and there is a discord in the pleasant time. Instantly every man in the pressroom, no matter what he may be doing, raises his head and looks around, to see the source of the dissonant noise. The particular note is located in an instant, and the portion or part of the ponderous machine where the discord is being made is traced by the ear at once. The same rule holds good in the engine room of an ocean steamer. The particular note is located in an instant, and the portion or part of the ponderous machine where the discord is being made is traced by the ear at once. The same rule holds good in the engine room of an ocean steamer. The instant any part of the noble engine goes out of order it calls in unmitigated tones to the quiet-looking engineer who hastens to prescribe a remedy.

The paper told of many incidents of his experience as a railroad engineer. The master of a locomotive gets to know his engine as well as his best friend. During a night with the train dashed along at the rate of forty-five miles an hour, the trained engineer hears a slight sound which is out of the ordinary. The noise is rolling prairie green the year round, covered with wild grass, and the engineer, who has got used to it, lets a bolt be come loose, let a band slip or a piston or bearing get out of place, and there is a discord in the pleasant time. Instantly every man in the pressroom, no matter what he may be doing, raises his head and looks around, to see the source of the dissonant noise. The particular note is located in an instant, and the portion or part of the ponderous machine where the discord is being made is traced by the ear at once. The same rule holds good in the engine room of an ocean steamer. The instant any part of the noble engine goes out of order it calls in unmitigated tones to the quiet-looking engineer who hastens to prescribe a remedy.
